RE: COVID-19 Update

Good afternoon,

It has been several months since we have had to notify you of a positive COVID case. Unfortunately, a team member in the skilled nursing center has been confirmed positive for the virus. All residents and team members in the skilled nursing center are being tested. We are suspending indoor visitation, communal dining, and large group activities in the nursing center until all residents' and team members' test results are returned and are cleared of any potential infections.

We currently have an adequate supply of all required Personal Protective Equipment (PPE).

Current Data	Nursing Center	Assisted Living	Independent Living
Positive Cases on Site	0	0	0
Positive Cases Hospitalized	0	0	0
Positive Cases in Rehab	0	0	0
Pending Test Results	0	0	0
Under Quarantine	0*	0	0
Cumulative Data	Nursing Center	Assisted Living	Independent Living
Total Confirmed Positive Tests	20	21	8
Team Member Data	Team Members		
Total Confirmed Positive Tests	30		
Total Recovered	29		
Total Under Quarantine	1		

*does not include residents under quarantine due to new admission status.

Thank you for your continued diligence in following the safety precautions in place to reduce the risk of infection. We hope this is a short term interruption.
